SUPER 610 PRO MAC™ 605, 610 645, 650, 655 and EAGER BEAVER® 3.7 CHAIN SAWS

McCulloch and Eager Beaver® chain saws are identified by a model number (in this instance, 600041, 600046, etc.) followed by a suffix number (01, 02, etc.) stamped on the identification plate attached to the saw. Suffix letters denote variations in parts or assemblies in the manufacture of the saw.

Part numbers listed in this I.P.L. which have a circled number ② or numbers preceding the description, are used only on the model or models identified by a circled number ② or numbers.

Part numbers which have one or more dots (.) preceding their descriptions may be ordered individually, but they are also included in the kit or assembly whose description begins directly above the dot(s).

The policy of McCulloch Corporation is one of continual improvement in design, manufacturing and engineering advancement wherever possible to assure still finer two-cycle power tools. Hence, specifications, equipment, colors, design and manufacturer's suggested list prices are subject to change without notice and McCulloch Corporation reserves the right to make such changes without prior notification or obligation to backfit or supply backfit components for units previously shipped from the factory.

① Used on all models except PM 650.

② Used on all PM 650 Models.

③ Pm 650 Model 600046-10 uses only one (1) Isolator, p/n 94847, in place of two (2) Isolators, one (1) p/n 93913 and one (1) p/n 94140.

④ PM 610 Models: 41-01, -02
128-05, -06
PM 650 Models: 46-02, -11, -19

NOTE:
PM 650 Models 46-01, -03, -04, -07, -08, -19 use four (4) screws, two (2) nuts and two (2) spikes.
